

The Green Party is a strong and growing force across Europe. Green MEPs have already been elected in the UK and many other countries.

More and more people are voting Green. It's the best way to show you care about the big issues that will face society in the future.

The elections are run using proportional representation, so voting Green really works.

EUROPEAN PARLIAMENT
ELECTIONS 4TH JUNE

ELECTION COMMUNICATION SOUTH WEST REGION

Facing up to the Future.

The European Union matters. Only by working together with other countries can we tackle today's vital challenges.

Greens in the European Parliament will work for:

A Strong and Stable Economy

New investment in jobs, skills and clean technology. Protection of workers' rights and strict, fair rules for international banking.

A Positive Role in the World

Urgent action on climate change and poverty. A foreign policy firmly based on justice, peace and human rights.

Respect for the Environment

Safe, healthy food and protection for the countryside. An end to waste mountains and new incinerators.

Vote Green Party 

Your Green candidate **Ricky Knight.**

Ricky Knight, 59, lives in Barnstaple, North Devon. Until recently he worked as a Modern Languages teacher. He has a degree in European Studies and can speak French and German. He has been a town councillor for six years. Ricky has campaigned actively on a number of issues, including renewable energy, homelessness and transport.
